

Fig. 1

Fig. 1 is a schematic cross-sectional view of a device. It features a central core with two horizontal layers, the upper one labeled M' and the lower one labeled M . This core is flanked by two vertical hatched bars, both labeled 40. A horizontal double-headed arrow labeled L' is positioned to the right of the device, indicating a length or distance. A dimension line labeled B is at the top, indicating a width. On the left, a rectangular component labeled 46 is connected to the device. Various other parts are labeled with numbers: 41, 45, 43, 5, 4, 42, and 35. The entire assembly is shown within a frame-like structure.
